### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: the specific limitations of a bookbinding apparatus comprising a movable adhesive tank constituted of a material containing a ferromagnetic material for retaining therein an adhesive melted by heat...an adhesive tank carrier for disposing the adhesive tank and roller at a stand-by position located outside a longitudinal end face of the sheet stack held by the holding unit in a stand-by stage, and moving the adhesive tank and roller together from the stand-by position in a longitudinal direction of the sheet stack substantially through an entire area under a back face of thereof in a bookbinding stage and a non-contact heater provided with an electromagnetic induction heating coil for contactlessly heating the adhesive tank and the non-contact heater is immovably placed at the stand-by position to melt the adhesive, is not anticipated or made obvious over the prior art of record in the examiner's opinion.

3,973,515 discloses a bookbinding apparatus comprising a moveable adhesive tank 35 and roller 42 for applying adhesive to the spine of the sheet set along a lateral edge and a non-contact heater in the form of a resistance coil 47 connected to the bottom of the tank 35 and moveable therewith, such that all the handle 36 is moved across the housing, the glue tank 35, roller and heater (coil 47) collectively are moved along the edge of the sheet set to allow the glue thereon.

'515 fails to disclose the material of the tank (ferromagnetic), the heating coil being an electromagnetic heating coil and the heater being immovable. Even if one were to alter the material of the tank as a matter of design choice or the type of coil (as

broadly taught by JP 8-216549, there is no teaching or suggestion to provide an immovable tank. '515 provides a heater that is attached to the tank therefore moves therewith.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
